**DHD 200-30 / DHD 200-30 W ICE & WATER DISPENSERS**

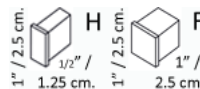

- AISI 304 stainless steel cabinet and adjustable legs.
- Strong structure that resists weight of ice machines. The ice dispenser maintains quality appearance, year after year.
- Capacity for dispensing either half or full dice cubes.
- High density polyurethane insulation injected to ensure long lasting ice inside the bin.
- The design of the ice dispenser has a modern and attractive look. It is very reliable, easy to use, sanitary and easy to clean.
- The interior liner is one seamless piece, rotocast-polyethylene bin, manufactured in a very resistant material, that remains undamaged by ice drop, scratches, knocks or scuffs.
- Quick and simple fastening system.
- Rotating drain connection.
- 6" Adjustable legs included.
- Best option for hotel, convenience store, self-service, hospitals, schools, and other applications.
- Electrical specifications: 115V/60Hz./1Ph
- NSF approved.
- Warranty: 36 months parts and labor.
